TCS Fresh

A TCS, Inc. Company

TCS Fresh is a global company dedicated to providing a professional grade dental cleanser for all types of removable appliances while promoting good dental health habits.

The "Go To" Cleaner

for all types of removable appliances

TCS Dental Appliance Cleaner

- ✓ A safe and concentrated solution for quick and effective results.
- ✓ A non-chlorinated solution (which means, it won't discolor, damage, have an unpleasant taste and/or odor).
- ✓ Removes stains that brushing alone can leave behind. E.g. Stains caused by tobacco, coffee, tea, blueberries, etc.
- ✓ Helps prevent iron stains as well as plaque, tartar, calcium, and calculus.

Dental Appliance Soak

The most effective method to keep dental appliances clean is by using a soaking solution. Many patients use a toothbrush and toothpaste; however, these can damage or scratch the surface of the appliance. A non-chlorinated, non-abrasive cleaner such as the TCS Dental Appliance Cleaner and a soft-bristle brush will help keep appliances looking and feeling like new.
