Sneak Peak of TCS Online Training

Manny and Abraham visited Elvis Rosado’s dental laboratory to begin working on TCS’s latest project. Under the guidance of Master Technician, Elvis Rosado, the team worked together to film the entire fabrication process of TCS appliances. The footage captured will be used to create an eLearning experience for busy dental technicians who are looking for online training that can be completed at their own pace.

Thank you Elvis Rosado and everyone at Matrix Dental Lab!
